Woman☆：

It was Sunday yesterday. I went to Kaede Farm with my parents and my brother, Hiro. First, we went to the food factory. We tried making sausages there. It was not easy to make sausages of the same size and shape. My father, Hiro, and I didn't make them well, but my mother did it very well. She said she is good at making small things because her hobby is making model cars. One of the staff members said, "We will cook your sausages. Please come back around noon." So we left the factory and went to see the cows. We tried taking milk from a cow. A staff member told us they make milk from the cows into cheese and sell it in the gift shop. Next, we went to the field for riding horses. We found a big black horse and wanted to ride him. Hiro was able to ride him, but I was not tall enough. Instead, the staff member brought me a small white horse. The small white horse was very friendly. After riding it, I touched its face and said, "Thank you." When we left the field, we were hungry. So, we returned to the factory and received our sausages cooked with vegetables. Some of the sausages had strange shapes, but they were all delicious. After lunch, we went to see a show with a dog and five sheep in a large field. The dog ran around in the field and took the sheep to one place. I was surprised that the dog was so smart. Before going home, we bought some milk and cheese at the gift shop. We had the milk at home. It was delicious. We still have the cheese. We are thinking about how to eat it. (20 秒)
